

Use (1) ten foot or (1) eight foot 2x4.

Cut two center pieces 19 inches.

Cut one piece 15 7/8 inches for the filler between the center pieces.

The filler must be exactly centered between the center pieces to allow space for the (2) 4' or 5' 2x2 uprights.

The remaining piece is cut in half for the legs.

Use 2-1/2 or 3 inch screws to hold the frame together.
